OS2 was a great partner. They presented us with product style options that fit our cultural look, they installed and serviced the units on schedule and as promised, and they were refreshingly transparent on pricing which prevented 'creep' and kept the project within our budget.

I would, and will, do business with OS2 again without hesitation.

To Whom it may concern:

It is my pleasure to recommend OS2 for any of your office needs. They were a great partner to work with as we transitioned into our new office. OS2 helped us in the selection of all our furnishings. Their interior design experts helped us maximize the work space in our office. They offered many modern designs and ergonomically correct options for us. Just as important as the furnishing design and layout, they provided creative financing options. This allowed us to be more flexible and meet our budget constraints while providing the best furnishings for our employees. When it came time to move in, OS2 assisted with all our furnishing set up (on our demanding schedule).

In addition to our furniture, OS2 also manages and maintains all the multipurpose printers - be that our everyday printers, or our high-end production equipment. OS2 provides routine maintenance so that we can reduce down time and they are always at our immediate disposal in the unfortunate time of any equipment malfunctions. Because of the service OS2 provides, we trusted them to relocate all our printers as we moved into our new office. Their services also included reestablishing setup with our new network connections. When we opened doors in our new office, there was no down time, and all our production equipment worked flawlessly.

More than 1-year after the move into our new office, OS2 continues to provide us with great client service. They have honored warranties on furnishings that have broken and they have provided us with replacements on furnishings that were not suitable for specific individuals. They did not treat us like a one-and-done project or client, and that means as much to us as anything. For that, they will continue to be our go-to firm for all our office needs.

If there is anything else that I can provide on the behalf of OS2, please feel free to contact me at 406.542.8880 or sshea@m-m.net.

Sincerely,

Shaun P. Shea, PE
Vice President, Morrison-Maierle
